WHAT RIGHTS DO YOU HAVE?

As a data subject, you have the following rights under the Data Protection Legislation:

- The right of access to personal data relating to you;
- The right to correct any mistakes in your personal data;
- The right to ask us to stop contacting you with direct marketing;
- Rights in relation to automated decision taking;
- The right to restrict or prevent your personal data being processed;
- The right to have your personal data ported to another data controller (e.g. if you decide to contract with a different supplier)
- The right to erasure; and
- The right to complain to the DPC if you believe we have not handled your personal data in accordance with the Data Protection Legislation

These rights are explained in more detail below, but if you have any comments, concerns or complaints about our use of your personal data, please contact us (see 'How to contact us' below). We will respond to any rights that you exercise within a month of receiving your request, unless the request is particularly complex or cumbersome, in which case we will respond within three months (we will inform you within the first month if it will take longer than one month for us to respond). Where a response is required from us within a particular time period pursuant to Data Protection Legislation, we will respond within that time period.

a) Right to access to personal data relating to you

You may ask to see what personal data we hold about you and be provided with the following information:

- The purposes of the processing;
- The categories of personal data concerned;
- The recipients or categories of recipient to whom the personal data has been or will be disclosed, with a special focus on recipients outside of the EEA;

- A copy of such personal data and the categories of data held (Only if this action will not adversely affect the rights and freedoms of others);

Requests for your personal data must be made to us (sar@prepaypower.ie) specifying what personal data you need access to, and a copy will be retained on your personnel file. To help us find the information easily, please give us as much information as possible about the type of information you would like to see.

If, to comply with your request, we would have to disclose information relating to or identifying another person, we may need to obtain the consent of that person, if possible. If we cannot obtain consent, we may need to withhold that information or edit the data to remove the identity of that person, if possible.

There are certain types of data which we are not obliged to disclose to you, which include personal data which records our intentions in relation to any negotiations with you where disclosure would be likely to prejudice those negotiations.

We are entitled to refuse a data access request from you where (i) such request is manifestly unfounded or excessive, in particular because of its repetitive character (in this case, if we decide to provide you with the personal data requested, we may charge you a reasonable fee to account for administrative costs of doing so), or (ii) we are entitled to do so pursuant to Data Protection Legislation. If we decide to refuse to comply with the data access request, we will send you an email or a letter setting out why and advising you that you may complain to the Data Protection Commissioner.

Upon receiving a Subject Access Request, we may call you to confirm you have sent a mail to request this information. This is simply to confirm your identity. Similarly, if you make a subject access request over the phone, we will ask you to send an email also. This is a security measure to avoid the disclosure of data to an unauthorised third party.

b) Right to update your personal data or correct any mistakes in your personal data

You can require us to correct any mistakes in your personal data (including any of your identification documents) which we hold free of charge. If you would like to do this, please:

- Email, call or write to us (see "How to Contact Us" in section 20):
- Let us have enough information to identify you (e.g. account number, user name, registration details); and
- Let us know the information that is incorrect and what it should be replaced with

If we are required to update your personal data, we will inform recipients to whom that personal data have been disclosed, unless this proves impossible or has a disproportionate effort.

It is your responsibility that all of the personal data provided to us is accurate and complete. If any information you have given us changes, please let us know as soon as possible either by writing to us at Data Control Manager, PrepayPower, 2nd Floor, Paramount Court, Corrig Road, Sandyford, Dublin 18, D18 R9C7 or by emailing us at datacontroller@prepaypower.ie specifying your account/MPRN on all correspondences.

c) The right to ask us to stop contacting you with direct marketing

You can ask us to stop contacting you for direct marketing purposes. If you would like to do this, please:

- Let us have proof of your identity and address (a copy of your driving license or passport and a recent utility or credit card bill); and
- Let us know what method of contact you are not happy with if you are unhappy with certain ways of contacting you only (e.g. you may be happy for us to contact you by email but not by telephone).

We will provide you with information on action taken on a request to stop direct marketing - this may be in the form of a response email confirming that you have 'unsubscribed'.

d) Rights in relation to automated decision taking

You may ask us to ensure that, if we are evaluating you (for example when doing a credit check on you), we don't base any decisions solely on an automated process and have any decision reviewed by a member of staff.

Profiling may occur in relation to your personal data for the purposes of targeted advertising and de-targeting you from specified advertising. This allows us to tailor our advertising to the appropriate customers and helps to minimise the risk of you receiving unwanted advertising.

These rights will not apply in all circumstances, for example where the decision is (i) authorised or required by law, (ii) necessary for the performance of a contract between you and us, or (ii) is based on your explicit consent. In all cases, we will endeavour that steps have been taken to safeguard your interests.

e) Right to restrict or prevent processing of personal data

In accordance with the Data Protection Legislation, you may request that we stop processing your personal data temporarily if:

- You do not think that your data is accurate (but we will start processing again once we have checked and confirmed that it is accurate);
- The processing is unlawful, but you do not want us to erase your data;
- We no longer need the personal data for our processing, but you need the data to establish, exercise or defend legal claims; or
- You have objected to processing because you believe that your interests should override our legitimate interests

If you exercise your right to restrict us from processing your personal data, we will continue to process the data if:

- You consent to such processing;
- The processing is necessary for the exercise or defence of legal claims;
- The processing is necessary for the protection of the rights of other individuals or legal persons; or
- The processing is necessary for public interest reasons

f) Right to Data Portability

In accordance with Data Protection Legislation, you may ask for an electronic copy of your personal data provided to us and which we hold electronically, or for us to provide this directly to another

party. This right only applies to personal data that you have provided to us – it does not extend to data generated by us.

The right to data portability also only applies where:

- The processing is based on your consent or for the performance of a contract; and
- The processing is carried out by automated means

g) Right to erasure

In accordance with Data Protection Legislation, you can ask us to erase your personal data where:

- you do not believe that we need your personal data in order to process it for the purposes set out in this Privacy Policy;
- if you had given us consent to process your personal data, you withdraw that consent and we cannot otherwise legally process your personal data;
- you object to our processing and we do not have any legitimate interests that mean we can continue to process your personal data; or
- your data has been processed unlawfully or have not been erased when it should have been;
- the personal data has to be erased to comply with law.

We may continue to process your personal data in certain circumstances in accordance with Data Protection Legislation.

Where you have requested the erasure of your personal data, we will inform recipients to whom that personal data has been disclosed, unless this proves impossible or involves disproportionate effort. We will also inform you about those recipients if you request it.

Data will not be erased when retention of the data is necessary for any of the below:

1. For exercising the right of freedom of expression and information;

2. For compliance with a legal obligation which requires processing by Union or Member State Law to which the controller is subject or for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller;
3. For establishment, exercise or defence of legal claims.

As there is a 6-year limitation period to take a breach of contract claim (statute of limitations), we will typically retain customer data for up to 6 years following the closure of a customer account.

- h) Right to complain to the DPC

If you do not think that we have processed your data in accordance with this Privacy Policy, please contact us in the first instance at datacontroller@prepaypower.ie. If you are not satisfied, you can complain to the Data Protection Commissioner or exercise any of your other rights pursuant to Data Protection Legislation. Information about how to do this is available on his website at <https://www.dataprotection.ie>

ARE THERE CASES WHERE WE MAY USE YOUR PERSONAL DATA TO CONTACT YOU?

We may contact you:

- to provide you with selected promotions and offers; and
- to invite you to participate in surveys about our services (participation is always voluntary).

Where we wish to use your personal data in any other way not set out in this Privacy Policy, we will ensure that we notify you first. You will also be given the opportunity to withhold or withdraw your consent for the use of your personal data for purposes other than those listed in this Privacy Policy via an easy method of unsubscribing from future messages at no cost to you.

HOW WE PROTECT YOUR PERSONAL DATA?

The security of personal data is important to us. We restrict access to personal data to employees, contractors and agents who need to know such personal data in order to operate, develop or improve the services that we provide.

We do our utmost to protect user privacy through the appropriate use of the security technology: we ensure that we have appropriate physical, technological and organisational security measures to protect your information and we ensure that when we outsource any processes that the service provider has appropriate security measures in place, and we have contracts in place with such service providers to ensure that this is the case. We will implement appropriate technical and organisational measures to ensure a level of security appropriate to the risks that are presented by the processing of your personal data. In particular, we will consider the risks presented by accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data transmitted, stored or otherwise processed.

The personally identifiable information we collect about you is stored in limited access servers. We maintain safeguards to protect the security, integrity and privacy of these servers and your personally identifiable information.

Unfortunately, the transmission of information via the internet is not completely secure. Although we will do our best to protect your personal data, we cannot guarantee the security of any data transmitted to our Website or through our Mobile App and any such transmission is at your own risk. Once we have received your information, we will use strict procedures and security features to try to prevent unauthorised access. We are not responsible for any delays, delivery failures, or any other loss or damage resulting from (i) the transfer of data over communications networks and facilities, including the internet, or (ii) any delay or delivery failure on the part of any other service provider not contracted by us, and you acknowledge that the Website and Mobile App may be subject to limitations, delays and other problems inherent in the use of such communications facilities. You will appreciate that we cannot guarantee the absolute prevention of cyber-attacks such as hacking, spyware and viruses. Accordingly, you will not hold us liable for any unauthorized disclosure, loss or destruction of your personal data arising from such risks.

BREACH REPORTING

We will notify data breaches to the DPC without undue delay, and where feasible, not later than 72 hours after having become aware of same. If notification is not made after 72 hours, we will provide a reasoned justification for the delay; however, it is not necessary to notify the DPC where the personal data breach is unlikely to result in a risk to the rights and freedoms of natural persons. A personal data breach in this context means a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed.

We will keep a record of any data breaches, including its effects and the remedial action taken, and will notify you of any data breach affecting your personal data (which poses a high risk to you) when we are required to do so under Data Protection Legislation. We will not be required to notify you of a data breach where:

- we have implemented appropriate technical and organisational measures that render the personal data unintelligible to anyone not authorised to access it, such as encryption; or
- we have taken subsequent measures which ensure that the high risk to data subjects is not likely to materialise; or
- it would involve disproportionate effort, in which case we may make a public communication instead.

WHO WE SHARE PERSONAL DATA WITH

The recipients or categories of recipients of your personal data include, but are not limited to, meter installers, DSOs, ESB Networks, Gas Networks Ireland, debt collection agencies (where required),

and any other third-party data processors which we require to process your personal data for the purposes for which it was collected as set out in this Privacy Policy. We may disclose your personal data to any company or other corporate entity under the control and direction of the Company. Where personal data is disclosed or transferred to organizations who handle or obtain personal data as service providers, we require such organizations to agree by way of contract to the confidentiality of such personal data, undertake to respect any individual's right to privacy and comply with Data Protection Legislation and use such personal data only for our specified purposes and otherwise follow our reasonable directions with respect to such personal data.

As stated above, we may also use your personal data, or permit selected third-parties to use your personal data, to provide you with information about services which may be of interest to you and we or they may contact you about these. We may also monitor or record telephone calls, to help improve our customer service, for security purposes, to administer your account and for debt recovery purposes.

We reserve the right to access and disclose personal data to comply with applicable laws and lawful government requests, to operate our systems properly and to protect both ourselves and our end users/customers. This includes exchanging information with other companies and organisations for the purposes of fraud protection and credit risk reduction.

We may also use service providers to help us run the Website or the Mobile App or to assist us to provide electricity and gas services to our customers. Any third parties who access your data in the course of providing services on our behalf are subject to strict contractual restrictions to ensure that your data is protected, in compliance with all applicable Data Protection Legislation.

In the event that we sell or buy any business or assets, we may disclose your personal data on a confidential basis to our professional advisers, the prospective seller or buyer of such business or assets or their professional advisers. If the Company or substantially all of its assets are acquired by a third party, your personal data held by us will be part of the transferred assets.
